

MICROCFS C Series System For O₂ Making & Cylinder Filling

MICROCFS C series O₂ system has been developed specially for the requirement of safe, reliable and convenient O₂ generation and O₂ compression. The MICROCFS C series incorporates PSA O₂ generation unit, O₂ compression and cylinder filling unit with design features for a variety of industrial and medical applications, is suitable for the compression of O₂ up to 150bar, The MICROCFS will fill up to 4 cylinders (40Liter) in a 24 hours period.

MICROCFS C Series System For O₂ Making & Cylinder Filling

Features:

1. Oil-Free Design. Oil-free air compressor and Oil-free reciprocating O₂ compressor
2. Proven Safety Features
3. Plug and Run
4. Low Maintenance
5. Compact Design and Lightweight
6. Portable

Models and Specification:

1. CFS-1C 4 cylinders/24 hours
2. CFS-1/2C 2 cylinders/24 hours
